

Laser-Lok[®]

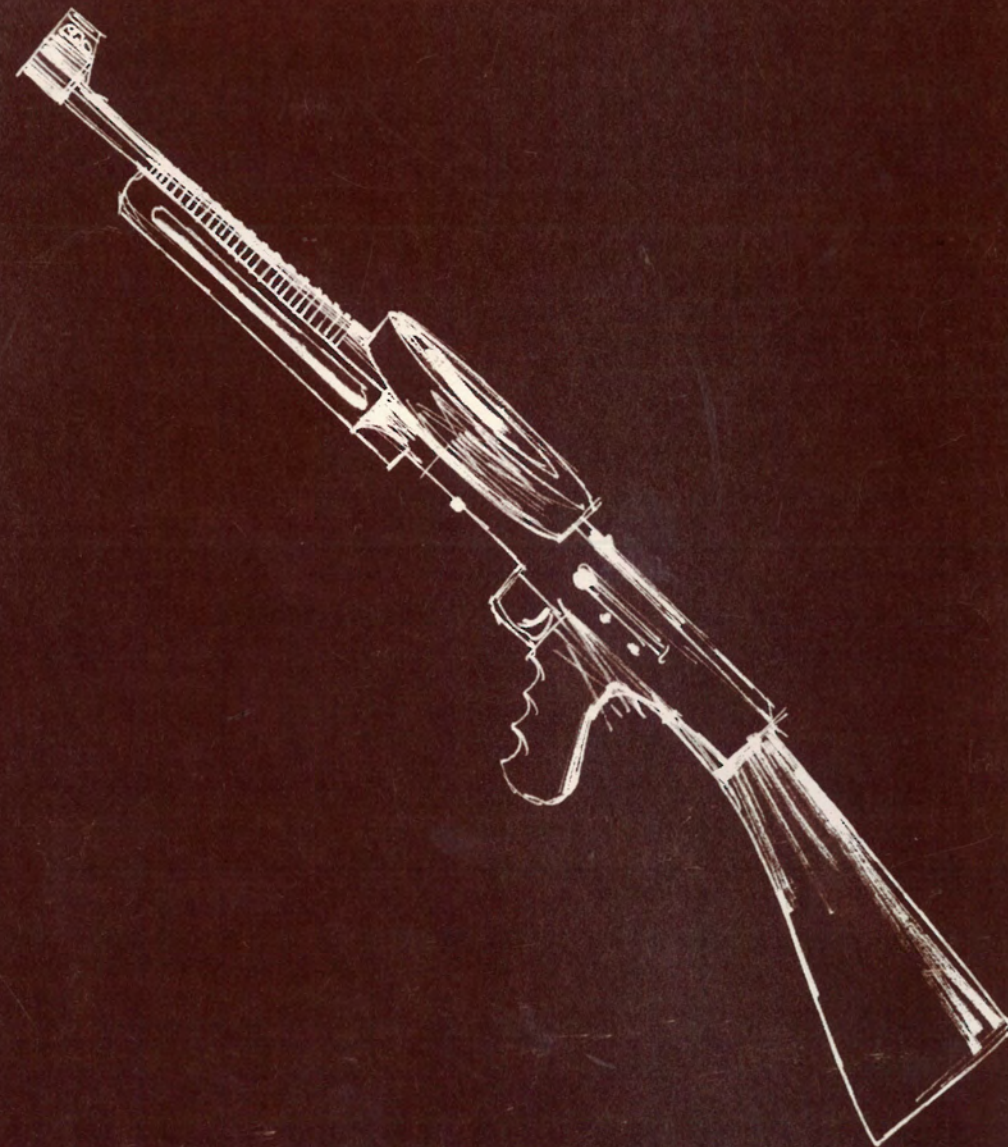

Laser-Lok[®] OPTIONAL SIGHT BEAM

A totally new concept
in sighting devices!

HERE'S HOW IT WORKS...

Ready...select your target
Aim...Project the Laser Beam
FIRE —!

The red Laser dot on your target
is where you shoot. Laser-Lok[®]
practically eliminates the need for
traditional sighting devices

Fire Power

AMERICAN 180

AMERICAN 180

...a new dimension in controllable firepower

World's fastest firing Rifle

The American 180 fires at a rate of over 900 rounds per minute—faster than any other firearm in the world. This means deliverable firepower—faster—and with more effective rounds on target—than with any other firearm.

Think about it! The American 180 can deliver all 180 rounds in just 12 seconds. That's fifteen rounds every second — on target, with no recoil and no barrel climb.

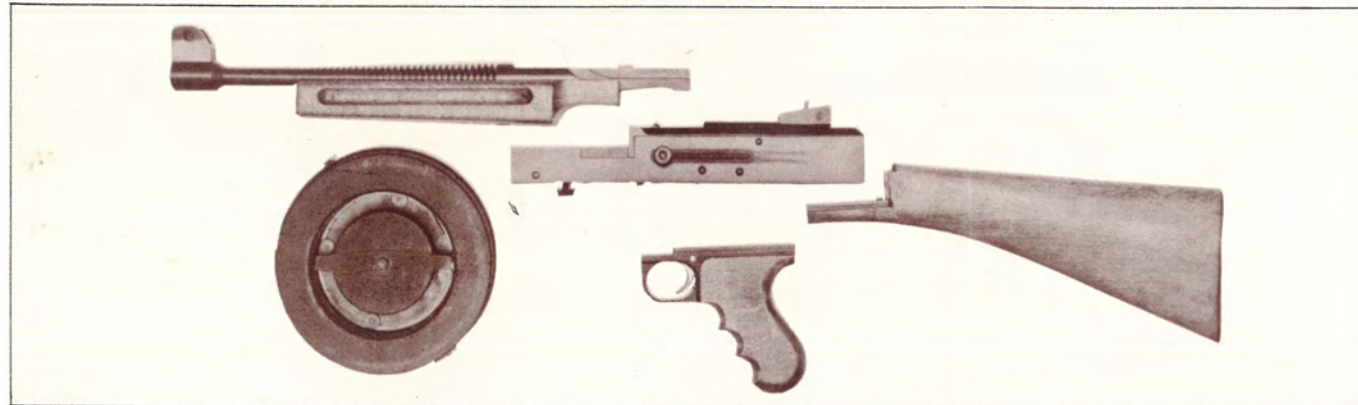

SIMPLICITY...RELIABILITY...ACCURACY...add up to CONTROLLABLE FIREPOWER in the NEW AMERICAN 180.

RUGGED—Combat tested for combat level performance.

ACCURATE—The American 180 is superbly accurate...you're on target at any firing rate.

PRECISION MADE—to ensure you of flawless function and completely dependable performance under all conditions.

- Micro-rifled high precision barrel
- High-impact plastic stock
- Semi-automatic...the Model 180 M1...or full automatic Model 180M2...available to qualified law enforcement departments
- Available with the fantastic new LASER-LOK® optional sight beam...for assured accuracy under ALL conditions.
